EXTRAORDINARY HISTORIC GOLD MEDAL

1 Gold medal by Tiffany & Co. commemorating part taken individually by the several officials supervising laying of first Atlantic Cable, August 1858, under Cyrus W. Field. Obv. American sailor and Britannia (?), latter nude to the waist, stretch cable across ocean on world globe, continental outlines and longitude/latitude lines all in-relief, flanked respectively by ship with anchor and sextant and by globe, retort and factory chimneys. Above, dove of peace; in exergue, New York Chamber of Commerce's device flanked by American eagle and sketch of British arms, linked by the cable; TIFFANY & CO. below. Rev. American and British ships laying cable from windlasses, at point of meeting. Above, recipient's name engraved: *Henry A. Moriarty, Master, R.N.* and in two curved lines: FROM THE CHAMBER OF COMMERCE/AND CITIZENS OF NEW YORK, in exergue: COMMEMORATIVE OF THE PART TAKEN/BY HIM,/IN LAYING THE/FIRST/TELEGRAPHIC CABLE/BETWEEN EUROPE AND AMERICA, IN AUGUST, A.D. 1858. 59 mm. 94.35 grams. Brilliant Proof, couple of hardly noticeable edge test marks. First we have seen; necessarily extremely rare, as presentation in gold would have been limited to Cyrus Field himself, the two ships' masters, the British chief engineer, and possibly one or two political prime movers of the project. In violet morocco presentation case, hinged so that both sides of medal are visible, and lined with royal blue velvet.

ENGLISH CONSIGNMENT

12 **Colonials. Massachusetts. Oak Tree Shilling.** 1652. Noe 5. Good/Very Good but tree totally re-engraved by hand, many letters strengthened. A space filler.

13 **French Colonies.** 1721 "H". Sou. Good/Very Good, off center on a narrow planchet so that most of BENEDICTUM is off flan.

14 **Rosa Americana.** 1722. Halfpenny. Normal legends. Just about Very Good, somewhat dark, slightly rough.

15 Similar to last but •D:G: REX• and ROSA AMERI:, on rev. U's over V's. More or less Fine. Rare so.

16 1722. Penny. Normal legends, rosette after date only. Very Good, cleaned long ago.

17 1723. Halfpenny. Crowned rose and normal legends. Just about Very Good, rev. stronger, borders weakly struck.

18 1723. Penny. Nearly Very Fine, more coppery than usual, lightly pitted, and minor edge nicks.

19 Similar. Very close to Fine. Usual brassy appearance.

20 1723. Twopence. Better than Fine, rev. stronger than obv., faint attempt at bending.

Lot No. 24

24 **Exceedingly Rare Pattern Halfpenny.** 1723. **Star before date.** Obv. Different portrait, more ringlets in back than on adopted design, hair less wavy behind wreath, profile sharper with more pronounced double chin. Rev. Similar to adopted type but branch smaller; plain 5-pointed star between A and date. Fine/Very Fine, somewhat banged up on cheek and defaced (officially?) on harp and parts of drapery. In left rev. field is faintly engraved W•W in similar style to that on another pattern said to have been William Wood's pocket piece. Struck on an extra broad flan (size slightly over 1 1/8") showing space outside the complete borders on both sides. **Of the highest rarity,** the first ever auctioned. Only two others reported, one in the Royal Irish Academy, the other in a N.Y. estate; therefore, **the only collectible specimen!**

25 1724. Halfpenny. Very Good with obv. stronger than rev. as made; planchet cracked nearly to center. Over fifty times as rare as the 1723.

26 **State Coppers. Virginia.** 1773. Halfpenny. No stop after S. Six strings. **Newman 9-B.** Almost Fine with a few too many small nicks on edges and in fields. Very rare, finer than the Newman plate coin.

27 **Connecticut.** 1787. Cent. Draped bust, large letters. Miller 16^6-NN^2 (R-7). Good/Very Good, cleaned long ago, centers weak (especially at profile). **Ex. rare,** first we have handled; first auctioned in over 25 years to our knowledge.

28 **New Jersey. Cents.** 1787. Maris 33-U, 37-Y. Good/VG, latter heavily banged up; both very scarce. 2 Pcs.

29 **Kentucky Token.** n.d. (1792-95). Cent. Plain edge. About Ex. Fine, light brown.

30 Similar to last. Better than Very Fine, dark brown.

31 **Franklin Press Token.** 1794. Called "Cent" although technically a Halfpenny. Late state from badly broken dies. Unc., mint red and light olive; about half dentilated border shows contrary to the usual none.

32 **North American Token.** "1781". Brass. Sharpness of Fine/Very Fine, surfaces suggesting better than latter.

33 **Washingtonia.** "1783" (i.e. 1810-20). Cent. UNITY STATES. Fine or better but very weak strike on a planchet free of the usual roughness; faint pin scratches.

34 "1783". Draped bust, no button. Better than Very Fine, minor field scratch, rather dark reddish brown color; die cracked through base of date and many letters, a break we do not recall seeing before.

35 Similar to last with same dies and cracks. Very Fine plus, light olive color.

Lot No. 37

37 **Half Cents.** 1795. Gilbert 5. Plain edge, no pole. Thin flan. Nearly Very Fine-20, dark brown matte surfaces, faint handling marks; overstruck on (probably) a Talbot, Allum & Lee token.

Lot No. 38

38 The other and rarer variety of this type. G-6. Thin flan. Advanced rev. die break. Nearly Ex. Fine-40 but a few too many minute field and rim nicks; struck on a granularly defective planchet. Cinnamon brown with lighter and darker mottlings. Beautiful and important specimen of this rarity.

39 **Large Cents.** 1794. Sheldon 22. Fine, obv. notably stronger than rev.; chocolate obv. and charcoal brown rev., unimportant rim dents.

40 1794. S-26. Sharpness a hair's breadth short of Very Fine-20, surfaces more like 30, pleasing even light tan; tiny obv. rim nick, two even smaller rev. field nicks, but still very attractive.

Lot No. 41

41 1795. **S-74. Lettered edge.** Single terminal leaves. Overall AU-50, not too sharply brought up on some upper areas of head, surfaces splendid light to medium brown with lighter mottlings, some traces of mint red still visible. Late shattered reverse die. **Condition Census** level.

Lot No. 42

42 1795. S-75. Right terminal leaf double. **Choice Unc.,** just about 65 grade, pale golden iridescent light olive fading from mint red, the original brilliance visible near letters, numeral and leaves. Magnificent and the best we have seen in over ten years. This will tie for second finest known.

43 1798. **S-176.** Very rare early die state, the vertical flaw appearing as disconnected light dashes. This would be fully Ex. Fine but it has too many rim dents. Chocolate brown with lighter and darker mottlings. Condition Census level; even if graded down to a 25 this will tie for 5th best. Very seldom offered in even Fine.

44 1807/6. S-273. Late clashed die state. Better than Very Fine, signs of old cleaning.

45 1807. S-276. Common Large Fraction. Very Good, date very weak, apparently from another planchet partly atop it at striking.

46 1808. S-277. Scarcer of the two 13 Stars varieties. Fine, dark, borders weak.

47 1819. Newcomb-10. Small date. Nearly Very Fine but some minute nicks and scratches.

48 1824. N-4. Wide date. State IV: crack advanced—through 24 and last four stars. **Borderline MS-60,** deep greenish brown and cinnamon.

Lot No. 49

49 1827. N-11. Ex. rare unlisted state III, with the die crumbling under nose, and with crack through tops of UNITED. Unc., light brown and faded mint red. **Tied for finest known of this die state;** tied with a few others for third best of the variety.

50 1831. "N-6¼". Unlisted doublings on much of wreath. Large letters. AU-55 or better, light tan mostly faded from mint color, minute rev. rim nick, trivial keg marks. First seen with doubling on rev. and is one of about a dozen known in this grade.

51 **Small Cents. 1864 L.** Very Fine, some obv. erosion in field.

52 Similar to last. Nearly Ex. Fine, cleaned long ago; small rev. rim nick.

53 **1877.** Very Fine plus, light bag marks.

54 1878. Mint red and light olive Unc., with a few dark rev. stains.

55 1909 S Lincoln, 1911 S. Fine or better but cleaned, and AU with trace of mint red. 2 Pcs.

56 **Shield Nickel. 1871.** Very Fine or better, tiny rim nicks.

57 **Half Dime.** 1836. Valentine 4. Large 5 C. Nearly Unc., not well struck up in centers; light gray tone starting.

Lot No. 58

58 **Early Dimes. 1807.** Very Fine/Ex. Fine but an exceptionally sharp strike for this date, from the earliest die state ever reported—without any of the heavy clash marks which usually render large peripheral areas nearly or quite illegible. Several tiny field nicks, two plain rev. lint marks, from foreign matter adhering to the dies. First we've seen with this much detail visible.

Lot No. 59

59 **1828. Small date.** About Unc., mint frost mingling with gray tone, few faint hairlines. The striations in central obv. are adjustment marks. Rather less strongly struck up in centers than elsewhere, as usual for this date. Finer than most of the "uncs." auctioned in recent years.

---

60 **Quarters.** 1831. Browning 3 but with unlisted crack up through C (of 25 C.) to eagle. Small date and letters. About Ex. Fine but heavy scratch on cap. Rare.

62 1877. Full LIBERTY and counterstamped J.N.NUTE. Nearly Fine.

63 1905. Borderline Unc., frosty, mostly brilliant with some warm iridescent tone starting, and several tiny spots.

64 1928. Brilliant frosty Unc., pristine, choice; pale gray tone starting. Nearly full head.

281 Similar to last. Ex. Fine; darker reddish brown partly faded from mint color, many minute nicks.

282 1819. **N-4.** Crowded date. Fine, dark, porous. Rare, possibly among the top dozen or so of the variety; almost unobtainable in Very Fine with no recent records.

283 1819. N-6. Just Very Fine, rather dark brown. Uncommon.

284 1820/19. N-1. Large date. Very Fine but with corrosion and some removable gummy deposits.

285 1820/19. N-2. Small overdates. Fine/Very Fine plus, rough and has been cleaned, retoned years ago.

286 1820/19. N-3. Very Fine, light brown nicely mottled.

287 1820. N-5. Normal small dates. An enigma: surfaces dark brown with touches of faded mint red plus nicks and light scratches; sharpness more like VF-30. Scarce.

288 1820. N-8. Excellent match for preceding, lighter color faded from mint, but still more light scratches.

289 1820. N-9. Normal large dates. Nearly Ex. Fine but porous, pitted, cleaned, recolored.

290 1820. N-10. State I: recutting on 8th star, inner circle at left intact. Very Fine, interestingly mottled dark brown, bag marked, porous. Very rare variety.

291 1820. N-12. State II, after regrinding die to efface clashmarks. Surfaces AU-55, light reddish tan faded from mint red, couple of tiny spots either side; sharpness seemingly EF-45 but this dies state is always weak. Very scarce.

292 **1821.** N-2. So-called wide date. Ex. Fine, much natural bluish olive iridescence some of which is apparently faded from mint color, some rough patina developing, some pink apparently from decades-old cleaning from which the coin has largely recovered.

308 1826. N-4. Early state, before dies clashed. Almost AU-50, lustrous light tan some of which is faded from mint color; but rims nicked up.

309 1826. N-4; 1827. N-5. Nearly Ex. Fine and Very Fine plus, both with rev. pitting. 2 Pcs.

Lot No. 316

316 1827. **N-6.** State III. **Unc.,** beautifully iridescent light golden olive with interesting modulations, all obviously faded from mint red. Uneven strike as on many of these years, the relative weakness at upper leaves and lowest curls; faintest hint of what might (if continued longer) have become cabinet friction on cheek—displayed with the lovely reverse up. **Tied with one other for finest known.** Rare in any grade, extremely so in this splendid condition. Its only other competitor, the Sloss coin sold in 1967 by Lester Merkin, brought $425. in the recent GENA Convention sale.

320 1828/88. N-6. Better than Ex. Fine sharpness, various shades of iridescent olive faded from mint red, minor bag and rim nicks.

321 1828/88. N-7. Very Fine plus, cleaned long ago, naturally retoning.

322 1828. N-10. Small date. Better than Very Fine, charcoal gray, many bag marks.

323 1829. N-5. **Small letters.** Surfaces of Very Fine, richly mottled browns, but usual very weak strike.

324 1830. N-1. State III. (Large letters as are all here); 1834. **N-6.** Large date, stars, letters (scarce). Both Very Fine, the first usual uneven strike and the second dark and porous. 2 Pcs.

325 1830. N-2. Lovely obv., pale reddish brown faintly suggestive of lustre, weakly struck on relief areas, the die scratch to U shows. Very Fine.

326 1830. **N-4½**, unknown to Newcomb: double profile on brow, nose, lips and chin. State III late, with rim crumbling at 11th star. Ex. Fine or better, singularly lovely iridescent golden olive faded from mint red, light keg mark below O(N). Ex. rare, only the fifth reported, two of these being impounded.

327 1830. N-5; 1835. N-16. The first Ex. Fine but signs of retooling on stars and hair, the second Ex. Fine, but an "artist" has scratched marks on obv. 2 Pcs.

328 1830. "N-8¼," doubling visible on leaves and berries, same as on the Gaskill-Helfenstein (lot 135) specimen, cracked obv. die; also, 1835. N-5. The former was better than Ex. Fine before someone smoothed down the obv. fields, and the latter is more or less Fine but dark green porous surface. First extremely rare. 2 Pcs.

329 1831. N-3. Small letters; 1834. N-3. Large date, small stars and letters. Very Fine, second with dark porous patina. Former ex Leeds 819 (Chapman Bros., 1906), latter ex Boyd. 2 Pcs.

330 1831. N-6. Large letters; 1836. N-3. State III (obv. rim break). Former would be Ex. Fine but dark and rough, latter better than Very Fine but cleaned long ago, retoned. Respectively ex Boyd and Leeds collections. 2 Pcs.

331 1831. N-7. Large letters. Sharpness of Ex. Fine, long faint obv. scratch. Surfaces unusually attractive, iridescent light and deeper olive faded from mint red; nice enough that Henry Chapman sold this piece as Unc. before World War I!

332 **N-7½.** The doubling is at chin, forelock and several r. stars, and more faintly on parts of wreath. Very Fine, dark reddish brown, traces of lustre; planchet granular as made, light rim nicks. Rare. Ex. Boyd.

333 1831. **N-8.** Earliest state, only microscopic traces of rev. crack. Sharpness of nearly Ex. Fine, uniformly rough; medium olive, somewhat iridescent.

334 Another N-8, this from rare later state with very heavy crack over TED S, evidently stuck just before the piece fell out of the die. Sharpness of VF-30, surfaces better than Ex. Fine, light reddish brown and light olive, some of the colors faded from mint red, especially near stars and letters. One of the top 9 or 10 of this rare variety; rare break. Ex Boyd.

335 1832. N-2. Small letters; 1836. N-3. Broken dies. Better than Very Fine, dark. First somewhat rough, second keg marked. 2 Pcs.

336 1832. N-3. Large letters. Overall AU; touches of cabinet friction on devices, light and darker olive faded from mint red; light keg marks.

337 1833. N-2. Better than Ex. Fine, several tiny pit-like planchet defects; obv. rim dent. Surfaces suggest a much higher grade, light tan faded from mint color with many flashes of original red.

338 1833. N-3. State I—before die was reground. Ex. Fine but two small sharp obv. rim nicks, various pale colors faded from mint, touches of dark porous obv. patina just starting.

339 1833. N-3½. State II—after die reground. Borderline Unc. although there is a minute obv. rim nick and faint hint of cabinet friction. Pale light olive and tan faded from mint red, beautiful surfaces, the double profile is plain and has proved rare in recent years.

340 1833. N-5. "Horned 8"; 1836. N-6. State III. Better than Very Fine, first weak but lustrous, small rim dent, many keg marks; second nicer overall. Ex Boyd and Leeds collections. 2 Pcs.

342 1834. N-3, with the crack. Unc., iridescent light and medium olive faded from mint red, touches of latter at stars. Several keg marks including a few on obv. rims. The scratch-like straight line near lower rev. border was on the blank when it was cut from strip, apparently originating in the rolling mills where these planchets were made. Common in worn state but rare anywhere near mint state.

Extraordinary Historic Gold Medal

LI

Gold medal by Tiffany & Co. commemorating part taken individually by the several officials supervising laying of first Atlantic Cable, August 1858, under Cyrus W. Field. Obv. American sailor and Britannia (?), latter nude to the waist, stretch cable across ocean on world globe, continental outlines and longitude/latitude lines all in relief, flanked respectively by ship with anchor and sextant and by globe, retort and factory chimneys. Above, dove of peace; in exergue, New York Chamber of Commerce's device flanked by American eagle and sketch of British arms, linked by the cable; TIFFANY & CO. below. Rev. American and British ships laying cable from windlasses, at point of meeting. Above, recipient's name engraved: Henry A. Moriarty, Master, R.N. and in two curved lines: FROM THE CHAMBER OF COMMERCE/AND CITIZENS OF NEWYORK, in exergue: COMMEMORATIVE OF THE PART TAKEN/BY HIM,/IN LAYING THE/FIRST/ TELEGRAPHIC CABLE/BETWEEN/EUROPE AND AMERICA, IN AUGUST, A.D. 1858 59 mm. 94.35 grams. Brilliant Proof, couple of barely noticeable edge test marks. First we have seen; necessarily extremely rare, as presentation in gold would have been limited to Cyrus Field himself, the two ships' masters, the British chief engineer, and possibly one or two political prime movers of the project. In violet morocco presentation case, hinged so that both sides of medal are visible, and lined with royal blue velvet.

WD

11 Michael VII Ducas. 1071-1078. Nomisma of pale gold. Bust with labarum and cross on globe, facing. Rev. Bust of Christ with halo facing. BMC. 2 var. Very Fine. (90.00)

ENGLISH CONSIGNMENT

12 Colonials. Massachusetts. Oak Tree Shilling. 1652. Noe 5. Good/Very Good but tree totally re-engraved by hand, many letters strengthened. A space filler.

13 French Colonies. XXXX 1721 "H". Sou. Good/Very Good, off center on a narrow planchet so that most of BENEDICTUM is off flan.

14 Rosa Americana. 1722. Halfpenny. Normal legends. Just about Very Good, somewhat dark, slightly rough.

15 Similar to last but ·D:G:REX· and ROSA AMERI:, on rev. U's over V's. More or less Fine. Rare so.

16 1722. Penny. Normal legends, rosette after date only. Very Good, cleaned long ago.

17 1723. Halfpenny. Crowned rose and normal legends. Just about Very Good, rev. stronger, borders weakly struck.

18 1723. Penny. Nearly Very Fine, more coppery than usual, lightly pitted, and minor edge nicks.

19 Similar. Very close to Fine. Usual brassy appearance.

20 1723. Twopence. Better than Fine, rev. stronger than obv., faint attempt at bending.

21 1723. Farthing. 12 strings. Fine but some rough dark patina and small rim nicks.

22 Wood's Hibernia Coins. 1723. Halfpenny with small 3 and eleven strings. Fine/Very Fine.

23 Similar to last. Very Good, Good plus with planchet defect and Good, with pellet before H, ten strings, large counterstamped P. 3 Pcs.

24 Exceedingly Rare Pattern Halfpenny. 1723. Star before date. Obv. Different portrait, more ringlets in back than on adopted design, hair less wavy behind wreath, profile sharper with more pronounced double chin. Rev. Similar to adopted type but branch smaller; plain 5-pointed star between A and date. Fine/Very Fine, somewhat banged up on cheek and defaced (officially?) on harp and parts of drapery. In left rev. field is faintly engraved W·W in similar style to that on another pattern said to have been William Wood's pocket piece. Struck on an extra broad flan (size slightly over 1 1/8") showing space outside the complete borders on both sides. Of the highest rarity, the first ever auctioned. Only two others reported, one in the Royal Irish Academy, the other in a N.Y. estate; therefore, the only collectible specimen!

25 1724. Halfpenny. Very Good with obv. stronger than rev. as made; planchet cracked nearly to center. Over fifty times as rare as the 1723.

26 State Coppers. Virginia. 1773. Halfpenny. No stop after S. Six strings. Newman 9-B. Almost Fine with a few too many small nicks on edges and in fields. Very rare, finer than the Newman plate coin.

27 Connecticut. 1787. Cent. Draped bust, large letters. Miller 16^{6}-NN^{2} (R-7). Good/Very Good, cleaned long ago, centers weak (especially at profile). Ex. rare, first we have handled; first auctioned in over 25 years to our knowledge.

28 New Jersey. Cents. 1787. Maris 33-U, 37-Y. Good/VG, latter heavily banged up; both very scarce. 2 Pcs.

Randall

34 Kentucky Token. n.d. (1792-95). Cent. Plain edge. About Ex. Fine, light brown.

35 Similar to last. Better than Very Fine, dark brown.

36 Franklin Press Token. 1794. Called "Cent" although technically a Halfpenny. Late state from badly broken dies. Unc., mint red and light olive; about half dentilated border shows contrary to the usual none.

37 North American Token. "1781". Brass. Sharpness of Fine/Very Fine, surfaces suggesting better than latter.

38 Washingtonia. "1783" (i.e. 1810-20). Cent. UNITY STATES. Fine or better but very weak strike on a planchet free of the usual roughness; faint pin scratches.

39 "1783". Draped bust, no button. Better than Very Fine, minor field scratch, rather dark reddish brown color; die cracked through base of date and many letters, a break we do not recall seeing before.

40 Similar to last with same dies and cracks. Very Fine plus, light olive color.

41 1793. Ship Halfpenny. Very Good but struck on defective planchet.

42 Half Cents. 1795. Gilbert 5. Plain edge, no pole. Thin flan. Nearly Very Fine-20, dark brown matte surfaces, faint handling marks; overstruck on (probably) a Talbot, Allum & Lee token.

43 The other and rarer variety of this type. G-6. Thin flan. Advanced rev. die break. Nearly Ex. Fine-40 but a few too many minute field and rim nicks; struck on a granularly defective planchet. Cinnamon brown with lighter and darker mottlings. Beautiful and important specimen of this rarity.

Ex. Fall

39 Large Cents. 1794. Sheldon 22. Fine, obv. notably stronger than rev.; chocolate obv. and charcoal brown rev., unimportant rim dents.

40 1794. S-26. Sharpness a hair's breadth short of Very Fine-20, surfaces more like 30, pleasing even light tan; tiny obv. rim nick, two even smaller rev. field nicks, but still very attractive.

41 1795. S-74. Lettered edge. Single terminal leaves. Overall AU-50, not too sharply brought up on some upper areas of head, surfaces splendid light to medium brown with lighter mottlings, some traces of mint red still visible. Late shattered reverse die. Condition Census level.

42 1795. S-75. Right terminal leaf double. Choice Unc., just about 65 grade, pale golden iridescent light olive fading from mint red, the original brilliance visible near letters, numeral and leaves. Magnificent and the best we have seen in over ten years. This will tie for second finest known.

43 1798. S-176. Very rare early die state, the vertical flaw appearing as disconnected light dashes. This would be fully Ex. Fine but it has too many rim dents. Chocolate brown with lighter and darker mottlings. Condition Census level; even if graded down to a 25 this will tie for 5th best. Very seldom offered in even Fine.

44 1807/6. S-273. Late clashed die state. Better than Very Fine, signs of old cleaning.

45 1807. S-276. Common Large Fraction. Very Good, date very weak, apparently from another planchet partly atop it at striking.

46 1808. S-277. Scarcer of the two 13 Stars varieties. Fine, dark, borders weak.

47 1819. Newcomb /-10. Small date. Nearly Very Fine but some minute nicks and scratches.

Marshall

1824. N-4. Wide date. State IV: crack advanced--through 24 and last four stars. Borderline MS-60, deep greenish brown and cinnamon.

1827. N-11. Ex. rare unlisted state III, with the die crumbling under nose, and with crack through tops of UNITED. Unc., light brown and faded mint red. Tied for finest known of this die state; tied with a few others for third best of the variety.

1831. "N-6¼." Unlisted doublings on much of wreath. Large letters. AU-55 or better, light tan mostly faded from mint color, minute rev. rim nick, trivial keg marks. First seen with doubling on rev. and is one of about a dozen known in this grade.

Small Cents. 1864 L. Very Fine, some obv. erosion in field.

Similar to last. Nearly Ex. Fine, cleaned long ago; small rev. rim nick.

1877. Very Fine plus, light bag marks.

1878. Mint red and light olive Unc., with a few dark rev. stains.

1909 S Lincoln, 1911 S. Fine or better but cleaned, and AU with trace of mint red. 2 Pcs.

Shield Nickel. 1871. Very Fine or better, tiny rim nicks.

Half Dime. 1836. Valentine 4. Large 5 C. Nearly Unc., not well struck up in centers; light gray tone starting.

Early Dimes. 1807. Very Fine/Ex. Fine but an exceptionally sharp strike for this date, from the earliest die state ever reported-- without any of the heavy clash marks which usually render large peripheral areas nearly or quite illegible. Several tiny field nicks, two plain rev. lint marks, from foreign matter adhering to the dies. First we've seen with this much detail visible.

59 1828. Small date. About Unc., mint frost mingling with gray tone, few faint hairlines. The striations in central obv. are adjustment marks. Rather less strongly struck up in centers than elsewhere, as usual for this date. Finer than most of the "uncs." auctioned in recent years.

60 Quarters. 1831. Browning 3 but with unlisted crack up through C (of 25 C.) to eagle. Small date and letters. About Ex.Fine but heavy scratch on cap. Rare.

61 1834. B-4. Very Fine but minute rim nicks, dark gray tone.

62 1877. Full LIBERTY and counterstamped J.N.NUTE. Nearly Fine.

63 1905. Borderline Unc., frosty, mostly brilliant with some warm iridescent tone starting, and several tiny spots.

64 1928. Brilliant frosty Unc., pristine, choice; pale gray tone starting. Nearly full head.

65 Early Half Dollar. 1795. Overton 113. The very scarce and popular type coin with the corrected blunder STATES over STETES. Fine or better but rather weakly struck up in centers, as usual; advanced die cracks.

66 Gold Dollars. 1853. Sharpness of Ex. Fine but several bag marks.

67 1854. Type II. Very Fine but several light scratches; sharply struck.

68 1860 S. Normal S. Very Fine, several minute rim nicks, many light scratches.

69 1862. Nearly Uncirculated.

70 Quarter Eagle. 1910. Extremely Fine.
